인용 및 출처 표기 방식 (Citation Guide)

인용출처를 표기하는 방식에는 여러 가지가 있지만 가장 많이 사용하는 형식으로는 다음 두 가지가 있다.

- APA (American Psychological Association: 미국심리학회) 인용방식- 사회과학에서 주로 사용
- MLA (Modern Language Association: 현대언어학회) 인용방식- 인문학에서 주로 사용

참고문헌 서지정보 자동 생성

URL을 통해 DOI로 참고문헌 서지 자동 생성 논문 랜딩페이지의 인용 버튼에 활용

- 구문 : `http://data.doi.or.kr/cite/{DOI}`
- 예시 : `http://data.doi.or.kr/cite/10.1633/JISTAP.2013.1.2.3`

Citation Style Language

Welcome to the open source Citation Style Language (CSL) project! Our goal is to facilitate scholarly publishing by automating the formatting of citations and bibliographies. We develop the Citation Style Language and maintain a crowdsourced repository with over 9000 free CSL citation styles.

- **Authors** – learn how to find and use our CSL citation styles
- **Publishers** – learn how to create CSL styles for your journals and style guides and keep these styles up-to-date
- **Developers** – learn how to create or edit CSL styles, how to integrate CSL into your own software, and how to contribute to CSLs development
- **Blog** – for big CSL news updates
- **About us** – meet the CSL team and our supporters
- **Contact** – contact the CSL team

The screenshot shows the 'Find and edit CSL citation styles' interface. It features a search bar at the top and three main steps: 1. Find a style, 2. Edit the style, and 3. Use the style. Step 1 includes search options by name or example. Step 2 shows a preview of a citation and bibliography for a selected style, with buttons to install or edit/view code. Step 3 provides instructions on how to use the style in a document.

Search for the name of a style, the title of a journal, or search by example

1. Find a style

Search by name

If you're looking for a style like APA, Harvard, etc., just use the search box at the top of the page to search for a style name, or journal title.

Search by example

If you don't know the name of the style, but know what the final citation should look like, you can use our search by example tool to find styles that most closely match.

2. Edit the style

If you can't find a style that quite suits your needs, find one that's a pretty close match and click the "Edit style" button to open that style in the visual editor.
